

Chameleon ™

This thin, stretchable and iridescent heat transfer material changes colour depending on the angle from which it's viewed. Available in five shimmering shades, Chameleon heat transfer vinyl offers a subtle iridescent effect on white backgrounds, a more pronounced colorful effect on dark garments, and is excellent for creating tone-on-tone designs.

Recommended Fabrics

100% cotton
100% polyester*
Poly/cotton blends

Cutting Notes

You should always test cut prior to any production run. Remember cutter settings will need to be adjusted as your blade ages. For optimal cutting and weeding, maintain a line thickness of at least 1.5mm (1/32") for lettering & logos.

Application Instruction

Temp: 150°C
Time: 10 sec.
Pressure: Medium
(#4-6 on Hotronix®)
Peel: Cold

Multi-Color Designs

Apply background for 8 seconds, peel carrier cold. Repeat for additional colors. Finish with final application of 10 seconds. Peel cold.

Care Instructions

Machine wash up to 40°C using mild detergent. Do not use bleach. Dry at a normal dryer setting on household machines. Do not dry-clean. Can be directly ironed onto.

Storage

Store in a cool, dry area. Avoid direct heat, sunlight and humidity.

Accessories Required

Craft Paper or reusable Cover Sheet, EZ Weeder®

* Always test before manufacture.

STAHL'S

Please note: Due to variations in the photographic and printing process, colors shown in this brochure may vary from the actual product. It is advisable to refer to a product sample before making your purchase. We reserve the right to change the specification of these products without prior notification.
